PROFILE

Product designer with 9+ years in HealthTech, FinTech, Web3 and AI products. Led design at Diagnocat, an AI dental platform used by 1000+ clinics worldwide. I take a product from research and UX to a design system and a working, deployed build, using AI tools (Claude Code, Cursor) to ship faster.

EXPERIENCE

Diagnocat · Head of Design · 2022–2025 (3 years) · B2B HealthTech, AI

- Designed 3 AI products from scratch and a scalable design system with light and dark themes; 200+ screens.
- Raised mobile traffic from 8% to 35%.
- Ran 20+ in-depth interviews with dentists across 12 countries.
- Managed a team of 2 designers; worked directly with ML engineers and leadership.

Tango.me · Senior UX/UI Designer · 2021–2022 (9 months) · B2C streaming and messenger

- Shipped 3 interactive live-streaming games (+40 minutes to average session).
- UI elements added +10% to revenue. Optimized for an audience of 500M+ users.

Quantumsoft / Invitae · Middle UX/UI Designer · 2020–2021 (1.5 years) · B2B workforce software (US)

1440 LLC · UX/UI Designer · 2019–2020 · B2C geo-social app for the Chinese market

Project work (2+ years) · UB/RWT (Lead UX/UI/PO, India), CyberGUI, BitRussia, DaBro, OneFun, Alia and others.

OWN PRODUCTS

- **Vigilo** (vigilo.cc): global risk monitor, 44 live data sources, 239 countries, 26 AI functions.
- **EngiBoard**: native desktop and web task tracker (Tauri 2, Next.js, Supabase) shipped in 4 weeks, 44 releases.
- **Navigator.Taxi**: fleet operations platform, driver app plus dispatcher admin; 161 cars, 16 partner garages.
- **VIZI** (vizi.club): social platform with clubs and events, 1100+ profiles, full design system.
- **Atlas**: control room for AI agent fleets (observability, trace explorer, evals).

SKILLS

Product design: 0→1 discovery, UX research (interviews, CJM, A/B tests), design systems (atomic design, light/dark), responsive and mobile design, data-dense and AI interfaces (streaming states, confidence, human-in-the-loop).

Tools: Figma, Miro, Jira, Notion; AI-assisted development with Claude Code and Cursor; React/Next.js, Tailwind, Supabase for prototypes and production builds.

Team: managed teams up to 10 people, 50+ user interviews conducted.

EDUCATION

Synergy University (Moscow), Bachelor: Graphic Design and VR/AR, 2020–2024

Taurida National University, Specialist: Arabic Language and Literature, English, 2001–2006
